

Editable

Name

Folders

I can spell  
my name!

By Jamie White

# Make Your Own Name Folders

## Instructions:

1. Print a folder cover (pages 7-14) for each child and add a picture. Glue the cover to the front of a manila file folder. Another option is to insert the pictures and print from the PPT file.

# Instructions:

2. Open the editable pages in Power Point and type in your child's name.
3. You can use any font you like, but my favorite is KG Red Hands. Click [HERE](#) for a free download.
4. Glue those 2 pages to the inside of the file folder.
5. Draw dots under each letter of the 1<sup>st</sup> name.
6. Trace over the 2<sup>nd</sup> name with hot glue to make a tactile version.
7. Add dry erase tape (available in the office supply aisle or on Amazon) to the bottom of the folder.

## Instructions:

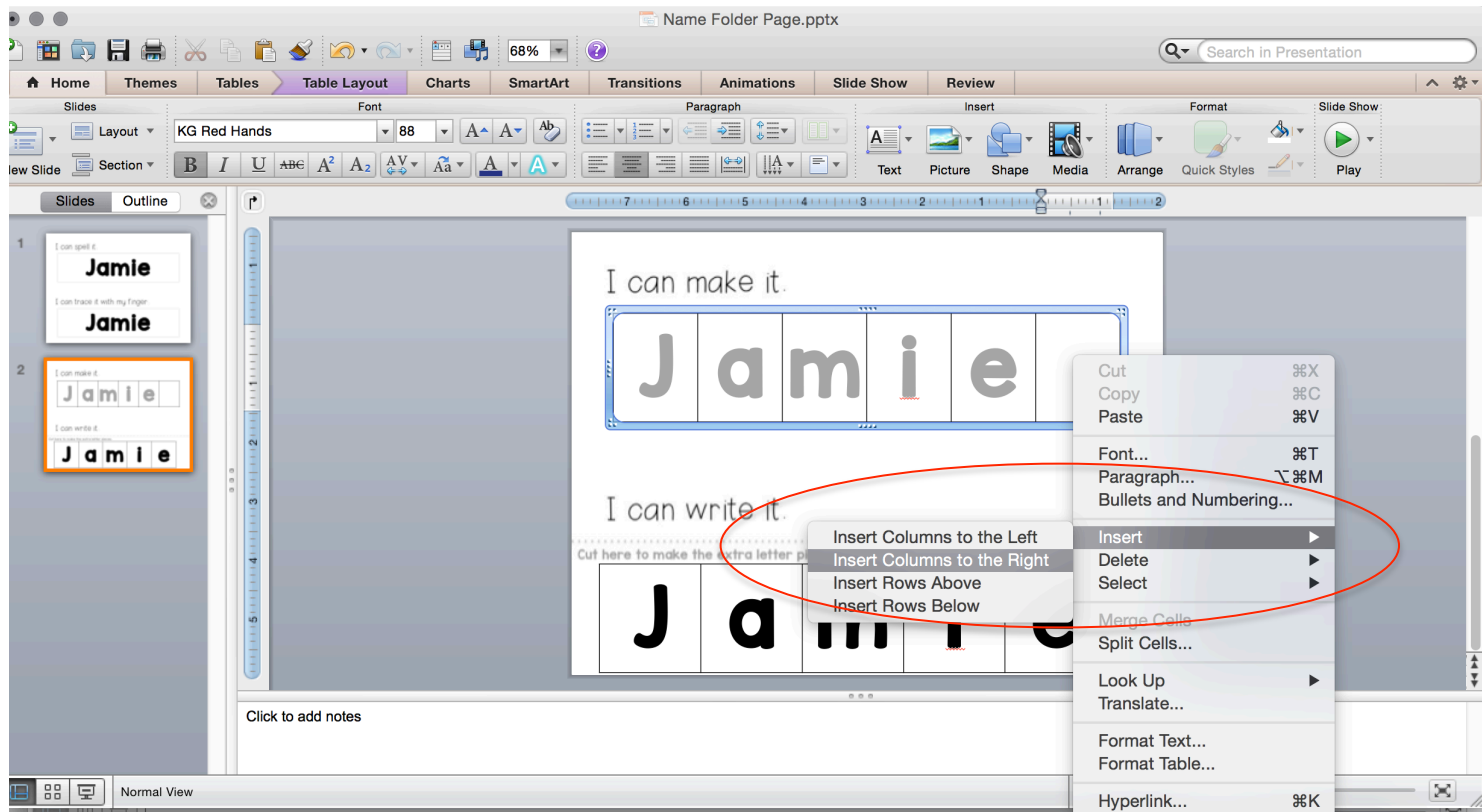

6. Cut off the second copy of the letter squares on the bottom of the page. Back them on cardstock or foam, if desired, and cut them apart.
7. Add a small plastic bag to the back of the folder to hold the pieces.

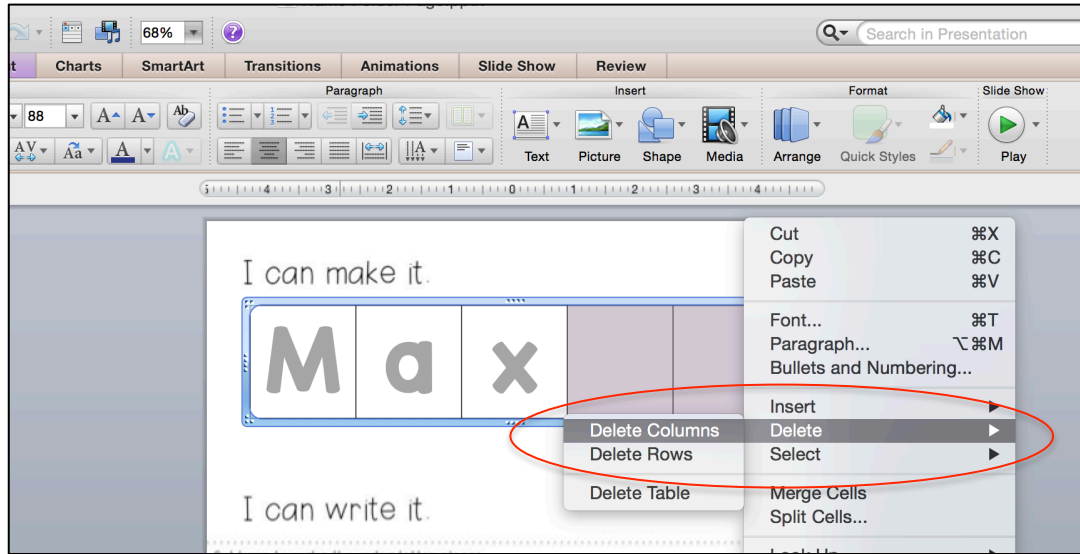

# Tips for the Editable Pages:

- You have to open the file in PowerPoint.
- Type the name in the top 2 boxes. You can highlight it and change the font and the size.
- Type one letter in each of the boxes on the “I can make it” portion.
- If you need more boxes, just right click after the last letter and select “Insert Column to the Right.”

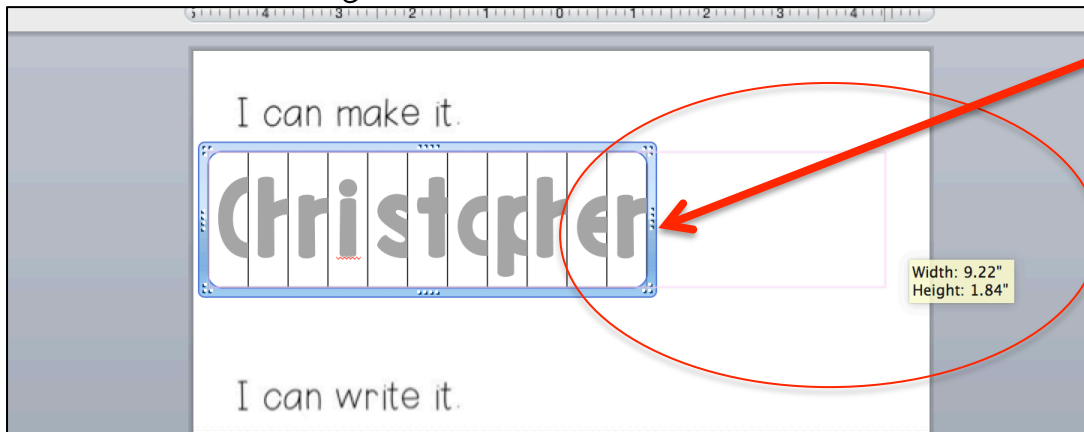

## Tips for the Editable Pages:

- If you need fewer boxes, highlight the empty ones and select “Delete Columns.”

- If you need to resize the box, click on an edge of the table and drag it to make it smaller or larger.

**Click this edge and drag it to make the table larger.**

A decorative border made of red circles of varying sizes, arranged in a rectangular frame around the page. The circles are connected to form a continuous, bubbly border.

# My Name Folder

A decorative border made of pink circles of varying sizes, arranged in a rectangular frame around the page. The circles are connected by thin lines, creating a bubbly, chain-like effect.
