

# 2 Minutes...

That's how long it will take you to make **differentiated name worksheets** for your entire class.

Just **type** your class list into the **form** and **click print**.

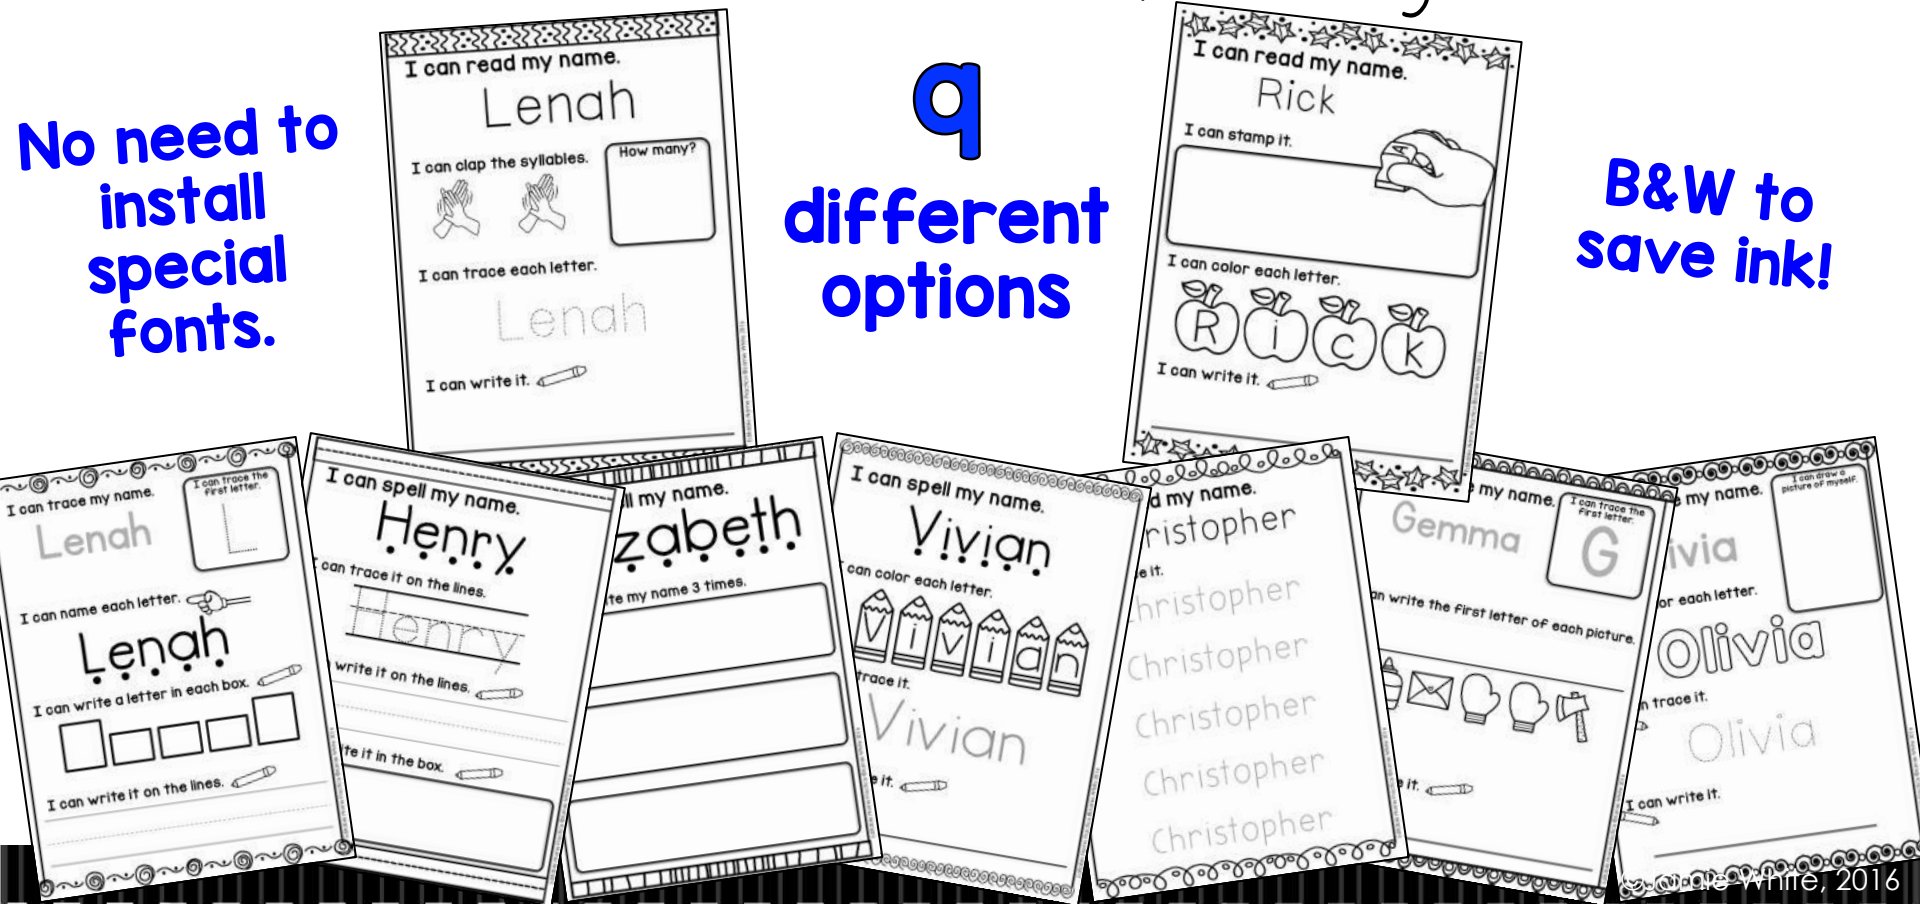

Voilà! Name worksheets for everyone!

**No need to  
install  
special  
fonts.**

**9  
different  
options**

**B&W to  
save ink!**

# Lots of Ways to Practice!

This set includes 9 pages with many different opportunities to practice spelling and writing names.

Type your class list  
(up to 20 names)  
into this form:

**My Class List**

Type your class list here. Put 1 name in each box.  
Then type **JUST THE FIRST LETTER** in the box next to it.

No need to install  
special fonts.  
Everything is  
included in the  
PDF!

Students touch  
the dots and  
spell their  
names.

When you type the  
names into the  
form, each page  
will print the  
matching boxes.

It will automatically create  
worksheets for each student,  
individualized with the  
student's name.

I can trace my name.  
**Isaac**

I can trace the first letter.  
**I**

I can name each letter.  
**I s a a c**

I can write a letter in each box.  
[ ] [ ] [ ] [ ] [ ]

Write it on the lines.

# Troubleshooting!

We want these worksheets to work for you and are happy to help in any way we can. If you're having difficulty with them, please try this before emailing for assistance!

Is this you?!

Help! When I type the names into the document, the top of each one cuts off. The fonts look wrong and the formatting is wonky.

**No worries!**  
**We know what the problem is!**

You need to open and edit the worksheets in **Adobe Reader**.

Many people don't realize that their computers have a default PDF reader installed. If you are on a Mac/iPad, that default reader is not Adobe. (Some other systems also have non-Adobe PDF readers.)

You *think* that you are using Adobe, but it is probably the generic version. Tricky, right?!

To fix this:

1. Download the Name Worksheet file. Don't open it online.
2. Right-click (or double-click) on the file in your downloads folder & choose **Open With -> Adobe Reader**.
3. You may be prompted to choose Adobe as your default PDF reader. Say YES to avoid problems in the future. That's it.

If you have tried this and it is still not working feel free to email a screenshot to Jamie at [PTLpreschool@gmail.com](mailto:PTLpreschool@gmail.com). She will get it to work for you. Promise!
