

Table of Contents

number
identification

shape
identification

To Play:

- Line up the pictures.
- Identify the number/shape/letter of each one.
- Hide the corresponding "hiding piece" under one of the larger pieces.
- Children guess where the "hiding piece" is.

16
games
included

upper case letter identification

lower case letter identification

Teacher Tip:

Each game includes many pieces. Adapt them for younger children by including fewer choices (numbers 1-4, for example). Gradually add more pieces as they get older and more confident.

All of the "hiding pieces" are together at the end for your convenience
