Unit overview

Day 1 Introduction - Sports

Introduce the new unit: **Sports**
Talk about different types of sports.
Take a poll and practice being a good sport.

Introduction
Activate Prior Knowledge

Did you know that there are more than 8,000 sports in the world? Some are individual sports, while others involve playing on a team. With so much variety, children are sure to find a sport they enjoy.

Objectives:

- The students will answer questions.
- The students will play with words, sounds, and rhymes.

Activities:

- Show the real-life photographs, bring in different type of sports equipment for the students to investigate. Students wear items.
- Lead a discussion on how different sports can be played inside or outside. Take a poll, "Whom is your favorite place to play sports?" Students can use speech, notes or name cards to respond on a pocket chart or bar graph.
- Sing the "Good Sportmanship" poem. Discuss how it is important to use kind words and actions when playing a sport.

Extension Idea: Make a ball around from student's students. Provide with the good sportmanship words from the day's activities.

Where is your favorite place to play?

Day 1 lesson plans

Day 2 Baseball/Softball

Sing a baseball actions song. Play a glove & ball carpet game.

Baseball / Softball
Home Run!

Baseball and softball have been around for over 150 years! Both are played on a field with four bases in the shape of a diamond. The game is played with a bat, a ball, and a glove.

Objectives:

- The students will play with words, sounds, and rhymes.
- The students will identify numbers.

Activities:

- Show the real-life photographs, bring in a baseball, softball, glove, and bat for the students to investigate. Ask the students if they have ever played baseball or softball.
- Sing the "Hoorsay!" song. Use the picture cards to assist with each verse.
- Play the "Hoorsay the Bat!" carpet game.

Game: Where is the ball? Is the right answer for your partner? Ask each one of you and recite the poem where the "Hoorsay" identifying.

Where is the Ball?

Hoorsay!

Day 2 lesson plans

Day 3 Soccer

Investigate things that roll vs. things that do not roll. Sort objects by beginning sound.

Soccer
Goal

The earliest versions of soccer date back more than 5,000 years! While referred to as football in some parts of the world, soccer takes a lot of practice, a healthy heart, and coordination.

Objectives:

- The students will observe objects with curiosity.
- The students will notice words that begin with the same sound.

Activities:

- Show the real-life photographs and bring in a soccer ball for students to explore. Discuss how the players in each picture are interacting with the soccer ball.
- Gather a variety of materials, some spherical, like a soccer ball, and others non-spherical, like a block. As a class, make predictions about which objects will roll, then test each item by gently pushing them along the carpet. Discuss if some roll smoothly, some might wobble (like the apple or football), and some might not roll at all. Picture cards are included to graph in a pocket chart.
- Sort pictures into 2 groups: words that start with an S and words that start with a B.

Extension Idea: Sort items the included recording sheet for students to investigate things that roll or that do not roll at home.

Does It Roll?

Day 3 lesson plans

Day 4 Bowling

Investigate how weight and size affect the speed at which balls roll. Play a pattern grid game.

Bowling
Strike

Bowling is a sport for players of all ages! Players roll a ball down a lane in an effort to knock down ten pins. Player gets two tries during their turn. If they get all pins down on the first roll it is called a strike. If they get all the pins down on the second roll, it is called a spare.

Objectives:

- The students will explore objects and make predictions.
- The students will notice and extend simple patterns.

Activities:

- Show the real-life photographs. Discuss how bowling balls have different weights to accommodate different bowlers. When possible, bring in a real bowling ball for students to explore.
- Bring in an assortment of balls in different weights and sizes. Show the class the 10 cheaters with 2 different balls on each. Recite the "Which Rolls Faster?" poem and make a prediction as to what is going to happen if a cheer or "hoorsay" is a pair.

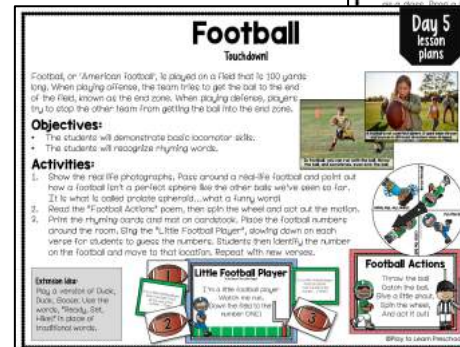

Which one is missing?

Which Rolls Faster?

Day 4 lesson plans

Day 5 Football

Look at the shape of a football. Number recognition song. Recite an action poem, spin the wheel, and act out football motions.

Football
Touchdown!

Football, or "American football," is played on a field that is 100 yards long. When playing offense, the team tries to get the ball to the end of the field, known as the end zone, when they are on offense, they try to stop the other team from getting the ball into the end zone.

Objectives:

- The students will demonstrate basic locomotor skills.
- The students will recognize rhyming words.

Activities:

- Show the real-life photographs. Pass around a real-life football and point out how a football isn't a perfect sphere like the other balls we've seen so far. (It's what is called prolate spheroid... what a funny word!)
- Recite the "Football Action" poem, then spin the wheel and act out the motion.
- Print the rhyming cards and mat on cardstock. Place the football numbers around the room. Sing the "Little Football Player" song, pointing out each number for students to guess the numbers. Students then identify the number on the football and move to that location. Repeat with new verses.

Extension Idea: Play a version of Duck, Duck, Goose. Use the words: "Strike," "Spare," "Hoorsay" instead of traditional words.

Little Football Player

Football Actions

Day 5 lesson plans

Circle Time Lessons

Unit overview

Day 6 Basketball

Discuss the difference between a sphere and a circle. Sort objects accordingly. Recite a "Five Happy Players" chip clip poem.

Basketball
Slam Dunk!

Invented over 125 years ago by James Naismith, basketball can be played both indoors or outdoors. The object of the game is to get the ball into a basket on opposite ends of the court.

Objectives:

- The students will count a set to 5 and make combinations of objects to create the set.
- The students will sort objects by property.

Activities:

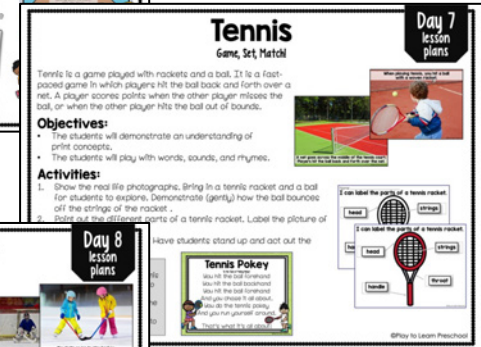

- Show the real life photographs. Bring in a basketball to share with the students. Talk about the colors, texture, etc. Discuss the different movements needed in basketball (dribbling, running, shooting the ball, etc.)
- Recite the "Five Happy Players" chip clip poem. As you progress through each verse, remove a player from the court.
- Bring in a variety of objects to sort into two groups: Things that are round like a frisbee and things that are round like a basketball. Picture cards are also included, if needed.

Extension Idea: Set up a small trash can and crumpled up recycled paper. Students attempt to toss the paper into the trash can.

Day 6 lesson plans

Day 7 Tennis

Look at the real pictures of tennis players and equipment. Label a picture. Sing the "Tennis Pokey" song.

Tennis
Game, Set, Match!

Tennis is a game played with rackets and a ball. It is a fast-paced game in which players hit the ball back and forth over a net. A player scores points when the other player misses the ball, or when the other player hits the ball out of bounds.

Objectives:

- The students will demonstrate an understanding of print concepts.
- The students will play with words, sounds, and rhymes.

Activities:

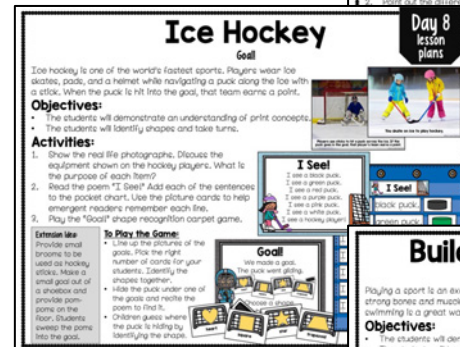

- Show the real life photographs. Bring in a tennis racket and a ball for students to explore. Demonstrate (gently) how the ball bounces off the strings of the racket.
- Print out the different parts of a tennis racket. Label the picture of a tennis racket.

Extension Idea: Have students stand up and act out the "Tennis Pokey" song.

Day 7 lesson plans

Day 8 Ice Hockey

Recite a concept of word poem. Play a shapes carpet game.

Ice Hockey
Goal!

Ice hockey is one of the world's fastest sports. Players wear ice skates, pads, and a helmet while navigating a puck along the ice with a stick. When the puck is hit into the goal, that team earns a point.

Objectives:

- The students will demonstrate an understanding of print concepts.
- The students will identify shapes and take turns.

Activities:

- Show the real life photographs. Discuss the equipment shown on the hockey players. What is the purpose of each item?
- Read the poem "I See!" Ask each of the sentences to the pocket chart. Use the picture cards to help emergent readers remember each line.
- Play the "Goal!" shape recognition carpet game.

Extension Idea: Provide small brooms to be used as hockey sticks. Make a small goal out of a shoebox and provide pom-poms on the floor. Students sweep the pom-poms into the goal.

Day 8 lesson plans

Day 9 Building Healthy Bodies

Discuss other sports and how they build healthy bodies. Sing a repeating song. Sort words by beginning sounds.

Building Healthy Bodies
Leading a Healthy Life!

Playing a sport is an excellent way to build a healthy body. A healthy body has strong bones and muscles. Exercising your heart by running, walking, or swimming is a great way to build a healthy body.

Objectives:

- The students will demonstrate basic locomotor skills.
- The students will begin to make letter-sound connections.

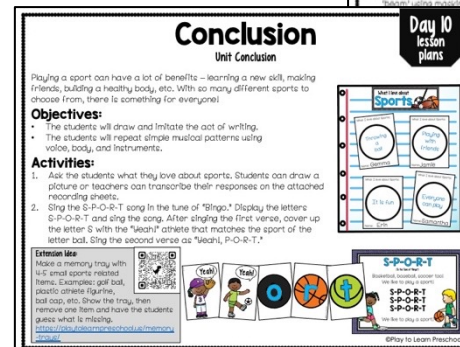

Activities:

- Show the real life photographs. Discuss how having strong bones and muscles help our bodies move better. Allow students to feel their muscles at rest and when flexed.
- Sing the song "Splash Around" repeat verses using the picture cards provided.
- Place the letter cards around the room. Make a circle on the line and walk to the letter card that matches the sound of the letter on the line and walk to the

Day 9 lesson plans

Day 10 Conclusion

Review what you've learned and collect information about student's favorite thing about sports. Sing a S-P-O-R-T bingo song.

Conclusion
Unit Conclusion

Playing a sport can have a lot of benefits – learning a new skill, making friends, building a healthy body, etc. With so many different sports to choose from, there is something for everyone!

Objectives:

- The students will draw and imitate the act of writing.
- The students will repeat simple musical patterns using verbs, body, and instruments.

Activities:

- Ask the students what they love about sports. Students can draw a picture or teachers can transcribe their responses on the attached recording sheets.
- Sing the S-P-O-R-T song in the tune of "Frigo." Display the letters S-P-O-R-T and sing the song. After singing the first verse, cover up the letter S with the "Splash" card that matches the sport of the letter S. Sing the second verse as "leach, P-O-R-T."

Extension Idea: Make a memory tray with 4-5 small sports related items. Examples: golf ball, pasta (swims/fishes), ball cap, etc. Show the tray, then remove one item and have the students guess what is missing.

Day 10 lesson plans

Baseball / Softball

Home Run!

Day 2
lesson
plans

Baseball and softball have been around for over 130 years! Both are played on a field with four bases in the shape of a diamond. The game is played with a bat, a ball, and a glove.

Objectives:

- The students will play with words, sounds, and rhymes.
- The students will identify numbers.

Activities:

1. Show the real life photographs. Bring in a baseball, softball, glove, and bat for the students to investigate. Ask the students if they have ever played baseball or softball.
2. Sing the "Hooray!" song. Use the picture cards to assist with each verse.
3. Play the "Where's the Ball?" carpet game.

Extension Idea:

Provide small baseball gloves and a small foam ball. Allow students to practice softly tossing the ball to a friend and catching it in the glove.

To Play the Game:

- Line up the pictures of the gloves. Pick the right number of cards for your students. Identify the numbers together.
- Hide the ball under one of the gloves and recite the poem to find it.
- Children guess where the ball is hiding by identifying the number.

When playing baseball or softball, you hit a ball with a bat, then you run to first base.

**If you catch the ball in the outfield,
the batter is out.**

Hooray!

To the Tune of "The Farmer in the Dell"

Soccer

Goal!

Day 3
lesson
plans

The earliest versions of soccer date back more than 3,000 years! While referred to as football in some parts of the world, soccer takes a lot of practice, a healthy heart, and coordination.

Objectives:

- The students will observe objects with curiosity.
- The students will notice words that begin with the same sound.

Activities:

1. Show the real life photographs and bring in a soccer ball for students to explore. Discuss how the players in each picture are interacting with the soccer ball.
2. Gather a variety of materials, some spherical, like a soccer ball, and others non-spherical, like a block. As a class, make predictions about which objects will roll, then test each item by gently pushing them along the carpet. Discuss if some roll smoothly, some might wobble (like the apple or football), and some might not roll at all. Picture cards are included to graph in a pocket chart.
3. Sort pictures into 2 groups: words that start with an S and words that start with a B.

Extension Idea:

Send home the included recording sheet for students to investigate things that roll/do not roll at home.

When playing soccer, you kick a soccer ball with your feet. It takes a lot of practice to get good at it.

The goalies are the only players who can touch the ball with their hands.

Bowling

Strike!

Day 4
lesson
plans

Bowling is a sport for players of all ages! Players roll a ball down a lane in an effort to knock down ten pins. Player gets two rolls during their turn. If they get all pins down on the first roll it is called a strike. If they get all the pins down after the second roll, it is called a spare.

Objectives:

- The students will explore objects and make predictions.
- The students will notice and extend simple patterns.

Activities:

1. Show the real life photographs. Discuss how bowling balls have different weights to accommodate different bowlers. When possible, bring in a real bowling ball for students to explore.
2. Bring in an assortment of balls in different weights and sizes. Show the class the $\frac{1}{2}$ sheets with 2 different balls on each. Recite the "Which Rolls Faster?" poem and make a prediction as a class. Prop a board against a desk or bookshelf at a slight angle and test each pair.
3. Play the sports grid game.

When bowling, you roll the bowling ball down a lane to knock down ten pins.

Some bowling balls are heavy and others are lighter. They come in all different colors.

Which one is missing?

Which Rolls Faster?

Big or small?
Heavy or light?
Which rolls faster?
Were you right?

Extension Idea:

Set up a small plastic bowling lane at a learning center. As students play, they count how many pins they've knocked over.

To Play:

1. Copy template page onto 5 different colors of paper.
2. Create a grid where each column has the same item, and each row is the same color. Discuss the pattern and relationship of the cards.
3. Students close their eyes while the teacher removes 1 card.
4. Students use their knowledge of patterns to determine which card (color and picture) is missing.

When bowling, you roll the bowling ball down a lane to knock down ten pins.

Some bowling balls are heavy and others are lighter. They come in all different colors.

Day 5
lesson
plans

Football, or 'American football', is played on a field that is 100 yards long. When playing offense, the team tries to get the ball to the end of the field, known as the end zone. When playing defense, players try to stop the other team from getting the ball into the end zone.

Objectives:

- The students will demonstrate basic locomotor skills.
- The students will recognize rhyming words.

Activities:

1. Show the real life photographs. Pass around a real-life football and point out how a football isn't a perfect sphere like the other balls we've seen so far. It is what is called prolate spheroid...what a funny word!
2. Read the "Football Actions" poem, then spin the wheel and act out the motion.
3. Print the rhyming cards and mat on cardstock. Place the football numbers around the room. Sing the "Little Football Player", slowing down on each verse for students to guess the numbers. Students then identify the number on the football and move to that location. Repeat with new verses.

Extension Idea:

Play a version of Duck, Duck, Goose. Use the words, "Ready, Set, Hike!" in place of traditional words.

A football is not a perfect sphere. It spins when thrown and bounces in different directions when dropped.

In football, you can run with the ball, throw the ball, and sometimes even kick the ball.

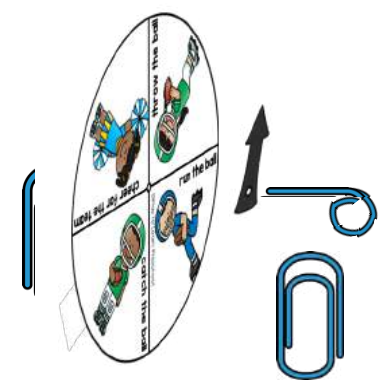

Football Actions

Throw the ball
Catch the ball.
Give a little shout.
Spin the wheel,
And act it out!

To Assemble:
 Print the spinner on heavy cardstock or back to cardboard. Make and assemble the "action spinner." Open up a paper clip, push one end through the arrow and then the spinner. Fold the end of the paperclip down the back and secure with tape. Twist the other end to ensure the arrow does not Sports off. (see diagram below)

Building Healthy Bodies

Leading a Healthy Life

Day 9
lesson
plans

Playing a sport is an excellent way to build a healthy body. A healthy body has strong bones and muscles. Exercising your heart by running, walking, or swimming is a great way to build a healthy body.

Objectives:

- The students will demonstrate basic locomotor skills.
- The students will begin to make letter-sound connections.

Activities:

1. Show the real life photographs. Discuss how having strong bones and muscles help our bodies move better. Allow students to feel their muscles at rest and when flexed.
2. Sing the song, "Splash Around!" Repeat verses using the picture cards provided.
3. Place the letter cards around the room. Make a line or 'beam' using masking tape from the circle time area to each letter. Say a word and show the corresponding picture. Students balance on the line and walk to the correct beginning sound.

Participating in sports, like gymnastics, can help improve flexibility and build muscles.

Swimming uses many different muscles in your legs and reach forward with your arms.

Learning a new sport takes practice and patience.

Extension Idea:

Create different colored play dough using this link. Allow students to shape different types of sports equipment and balls using the dough.
<https://playtolearnpreschool.us/best-play-dough-recipe/>

Splash Around

To the Tune of "If You're Happy and You Know It"

If you swim and you love it
Splash around!
If you swim and you love it
Splash around!

If you swim and you love it
Just think nothing of it
If you swim and you love it
Splash around!

Participating in sports, like gymnastics, can help improve flexibility and build muscles.

Swimming uses many different muscles. You kick your legs and reach forward with your arms.

**Learning a new sport takes
practice and patience.**

Day 10
lesson
plans

Playing a sport can have a lot of benefits – learning a new skill, making friends, building a healthy body, etc. With so many different sports to choose from, there is something for everyone!

Objectives:

- The students will draw and imitate the act of writing.
- The students will repeat simple musical patterns using voice, body, and instruments.

Activities:

1. Ask the students what they love about sports. Students can draw a picture or teachers can transcribe their responses on the attached recording sheets.
2. Sing the S-P-O-R-T song in the tune of “Bingo.” Display the letters S-P-O-R-T and sing the song. After singing the first verse, cover up the letter S with the “Yeah!” athlete that matches the sport of the letter ball. Sing the second verse as “Yeah!, P-O-R-T.”

Extension Idea:

Make a memory tray with 4-5 small sports related items. Examples: golf ball, plastic athlete figurine, ball cap, etc. Show the tray, then remove one item and have the students guess what is missing.

Center Activities

Centers

- Line Tracing
- Cutting Practice
- Visual Discrimination
- Name Strips
- Initial Sounds
- Patterning
- Number Order
- Number Recognition
- Concentration
- Journaling

Line Tracing

Objective: The students will understand the purpose of writing.

Preparation: Print and laminate these tracing cards. Another option is to place them inside a plastic sleeve. Provide dry erase markers. (Glue a pom-pom onto the top of the marker for the students to use as an eraser.)

Procedure: The students will trace the dotted line.

Cutting Practice

Objective: The students coordinate eye-hand movement and control the small muscles in their hands.

Procedure: Lay out each cutting page for each student. Demonstrate usage and guide students. The bottom to the top. The line will cut along the dotted line to the top.

Visual Discrimination

File Folder Game

Objective: The students will use visual discrimination skills to match the items.

Preparation: Copy the picture cards. Glue the large pictures (first 2 pages) inside a file folder. Cut and laminate the smaller pictures.

Procedure: Students place matching pictures together.

Name Strips

Objective: Students will recognize letters of the alphabet in their name.

Preparation: Write each student's name on a sentence strip. Print out a set of bowling pins with the letters of the student's name.

Procedure: Lay name strips and pin letters on the table. Attach a small pocket or envelope to the back of the sentence strip. Place the pin letters on the strip. (It's also a good idea to write the student's name on the strip once they get mixed up.)

- Alternatively, gather small plastic bowling pins. Write letters on the pins, or attach cards to pins. Allow students to arrange the pins to create their names.

Initial sounds

Objective: The students will draw and imitate the objects.

Preparation: Copy each page and place into a plastic sleeve.

Procedure: Students use a dry erase marker to trace the letter of each word.

Patterning

Objective: The students will identify and extend simple patterns.

Preparation: Print the pattern cards and pieces, mat, laminate and cut apart.

Procedure: Students identify the pattern and extend it by placing the next correct piece.

Number Order

Objective: The students will identify numbers.

Preparation: Copy the pictures and cut apart on the dotted line. Provide a mat for additional support.

Procedure: The students will identify the missing number and locate the corresponding picture.

Number Recognition

Objective: The students will recognize numbers.

Preparation: Print, mat, laminate, and cut both the small and large number cards.

Procedure: The students will select a small number card and match it to the larger number card accordingly.

Concentration

The students will use visual discrimination (matching) skills to identify identical objects.

Preparation: Print the picture cards. Mat onto cardstock and/or laminate. Cut apart.

Procedure: Place cards facing down. Students take turns flipping over 2 cards. If the cards match, the student gets to keep the pair. If not, they return them to the face-down position and try again.

Journaling

Objective: The students will understand the purpose of writing.

Procedure: Print the journal sheets. Students can use the journal prompts to write and draw a picture. The words can also be written for the student if necessary.

Learning to draw and write is a developmental process. Using children's real-life experiences helps them to learn to write. This is called "emerging literacy." The following is a writing guide to help children progress:

- Early stages 1-3:**
 - Draw a picture of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.
- Intermediate stages 4-5:**
 - Draw a picture of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.
- Advanced stages 6-7:**
 - Draw a picture of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.
 - Write the name of the object or event.

Line Tracing

Objective: The students will understand the purpose of writing.

Preparation: Print and laminate these tracing cards. Another option is to place them inside a plastic sleeve. Provide dry erase markers. (Glue a pom-pom onto the lid of the marker for the students to use as an eraser!)

Procedure: The students will trace the dotted lines from left to right to practice fine motor skills.

Trace the lines.

Name _____

Trace the line from left to right.

Cutting Practice

Objective: The students coordinate eye-hand movement and control the small muscles in their hands.

Preparation: Print a cutting page for each student. Demonstrate proper scissors usage and guide students to cut along the lines from the bottom to the top.

Procedure: The students will cut along the dotted lines from the bottom of the page to the top.

Name _____

Use scissors to cut the dotted lines.

Journaling

Objective: The students will understand the purpose of writing.

Procedure: Print the journal sheets. Students can use the journal prompts to write and draw a picture. The words can also be written for the student if necessary.

Learning to draw and write is a developmental process. Young children need lots of time and opportunities to scribble, draw, and write. This is called “emergent literacy.” The following is a very *general* guide to how children progress:

Early (ages 3-4)

- Read the prompt to the child and talk about it together.
- Encourage the child to draw a picture. It's okay if it is not yet a recognizable shape or image.
- Ask the child to tell about the picture. “Can you tell me about your picture?”
- Repeat what they say and write down your child's dictation on the lines. Be sure to date it!

Intermediate (ages 4-5)

- Read the prompt to the child and talk about it together.
- Encourage the child to draw a picture.
- Ask the child to tell about the picture. “Can you tell me about your picture?”
- Encourage the child to write about it on the lines. (The child will likely make scribbles or letter-like formations.)
- Ask your child if they want you to write their dictation on the lines as well.

Advanced (ages 5-6)

- Read the prompt to the child and talk about it together.
- Encourage the child to draw a picture and label it.
- Model for your child how to say a word, stretch it out and listen for the sounds that they hear.
- For example, if they draw a bear, say “bear.” Listen for the B sound and write the letter B to match. Can they hear any other sounds? Maybe they can also hear and write the letter R.
- Children may ask for you to write words for them to copy on the lines. This is fine as long as you also encourage them to write the letters and sounds that they hear.

Name _____

There are many different types of sports.
Draw a picture of you playing your favorite sport.

A large, empty rectangular box with a thick black border, intended for drawing a picture of the child playing their favorite sport.

Two sets of horizontal lines for writing, each consisting of a solid top line, a dashed middle line, and a solid bottom line.

Name _____

Many sports use a ball.

Which type of ball do you like to play with most?

A large, empty rectangular box with a thick black border, intended for a child to draw or write their answer to the question above.

Name _____

It is important to be a good friend when playing sports.
Draw a picture of someone having good sportsmanship.

Alphabet Activities

for Preschoolers

Play to Learn Preschool

These alphabet activities will help your young learner learn the letters of the alphabet!

Terms of Use:

Play to Learn resources are for personal classroom and home use only. They may not be used commercially.

YES:

- You may use this resource at home with your own children or in your classroom with your own students.
- You may print copies for your own children or students.
- You may send printed copies home with your students.
- You may use these lessons yourself to provide virtual teaching videos for your own students who might be learning at home.

NO:

- You may NOT post this file to any file sharing website. (DropBox, Google Drive, Facebook, Amazon, SeeSaw, etc.)
- You may NOT resell these resources.
- You may NOT send these PDFs via email for students to print at home.
- You may NOT share these PDFs with colleagues via email or otherwise.
- You may not claim these resources or ideas as your own.
- You may NOT use these resources to teach lessons that you **sell** online. (Teaching your own students – great. Selling these lessons, even if you do them yourself, online – not permitted.) This includes OutSchool and similar platforms.
