

Everything is Planned for You!

Introduction to activate prior knowledge.

Objectives written in kid-friendly language.

Foxes

Sneaky Fox

Day 4
lesson
plans

A fox is a small, dog-like wild animal with pointy ears and a bushy tail. They live alone and hunt for food at night. Foxes can make over 40 different sounds!

Objectives:

- The students will express themselves using words and sentences.
- The students will count sets to 5 and make combinations of objects to create each set.
- The students will identify numbers and take turns with others.

Activities:

1. Examine the real-life pictures of the foxes. What color is their fur? Have you ever heard a fox?
2. Recite the "Animals at Night" chip clip poem. As you progress through each verse, add an animal to the night-time scene.
3. Play the "Little Fox" game.

Extension Idea:

Foxes can make so many sounds. Some even sound like a child yelling! Play animal sounds at circle time and have students guess which animal they hear.

To Play the Game:

- Line up the pictures of the trees. Pick the right number of cards for your students. Identify the numbers together.
- Hide the fox under one of the trees and recite the poem to find it.
- Children guess where the fox is hiding by identifying the number of the tree.

Foxes have an excellent sense of hearing and smell. They use these senses to look for food.

Foxes are solitary animals. They prefer to sleep and hunt for food alone.

Real-life photos to generate discussion.

Songs, activities, carpet games, and more!

Daily extension activities.
