

Snowman Writing Cards

These winter writing cards make practicing letters and numbers fun and easy for little learners. Perfect for preschool and kindergarten, they give kids plenty of hands-on practice with a simple, low-prep setup.

Learning Objectives:

Letter and Number Recognition – Students will identify uppercase and lowercase letters A-Z, numbers 0-10, and 12 different shapes reinforcing early literacy and numeracy skills through hands-on practice.

Pre-Writing and Fine Motor Development – Students will use proper stroke formation to trace and begin writing letters, numbers, and shapes strengthening hand coordination and pencil grip in preparation for independent writing.

Preparation:

- **Print** the pages on standard paper or cardstock for durability.
- **Laminate** the sheets for reuse or place them in dry-erase pockets.
- **Cut** apart to create individual writing cards.

How to Use:

Children use dry-erase markers to trace each uppercase and lowercase letter, numbers 0-10, and 12 different shapes. When they're done, just wipe and try again for endless practice!

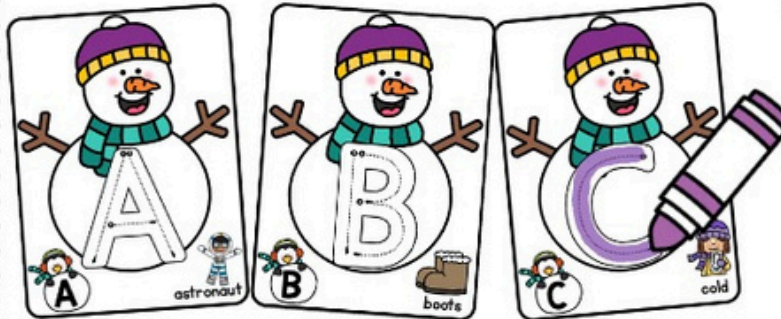

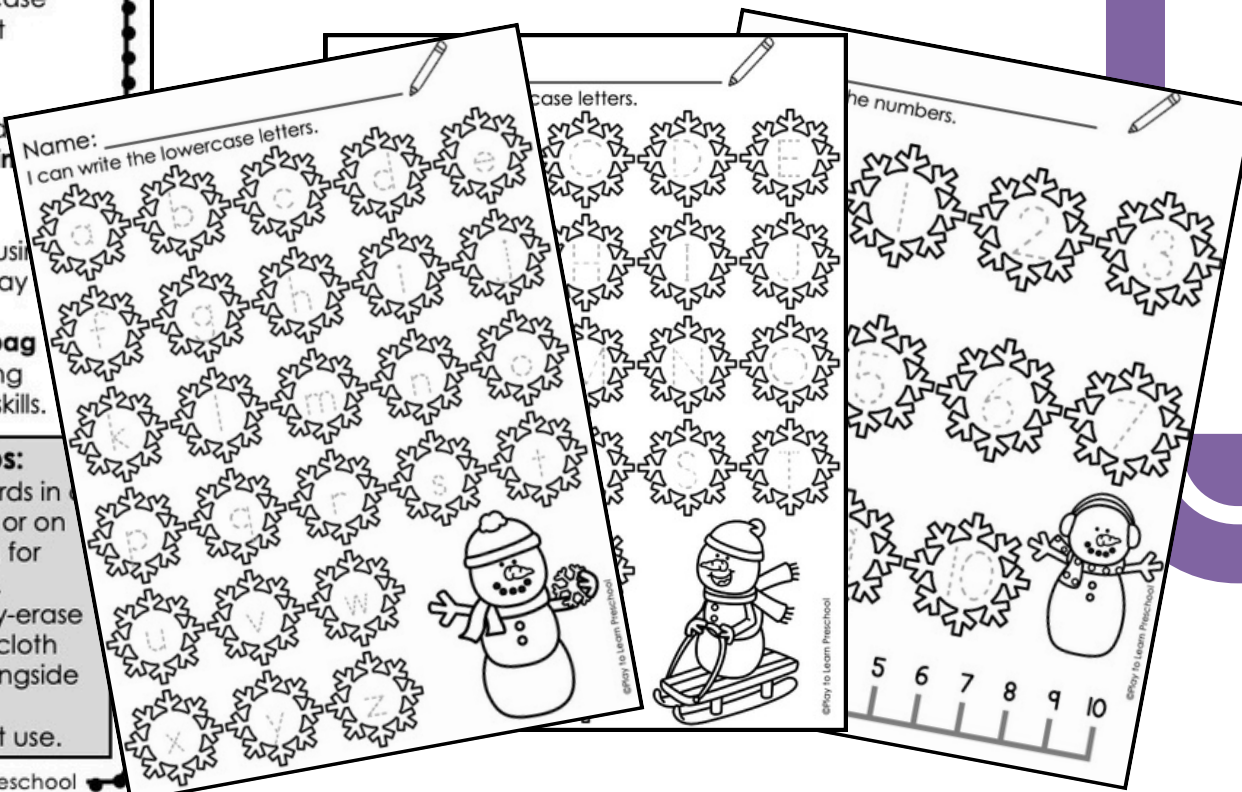

Other Fun Uses:

- **Build the Letters & Numbers** – Instead of tracing with a marker, students can form the letters and numbers using small manipulatives like **mini erasers, counters, orange pom-poms, or beads**, reinforcing letter recognition and fine motor skills.
- **Hands-On Letter Formation** – Encourage students to shape letters using **waxed yarn, pipe cleaners, or playdough**, giving them a tactile way to explore letter and number shapes before writing.
- **Sensory Writing Practice** – Place the cards under a **clear sensory bag** filled with hair gel or sand. Students can trace the letters by pressing with their fingers, promoting sensory exploration and early writing skills.

Storage Tips:

Keep the cards in a small basket or on a binder ring for easy access. Provide a dry-erase marker and cloth or eraser alongside the set for independent use.
