Story Retelling

Day 2  
lesson  
plans

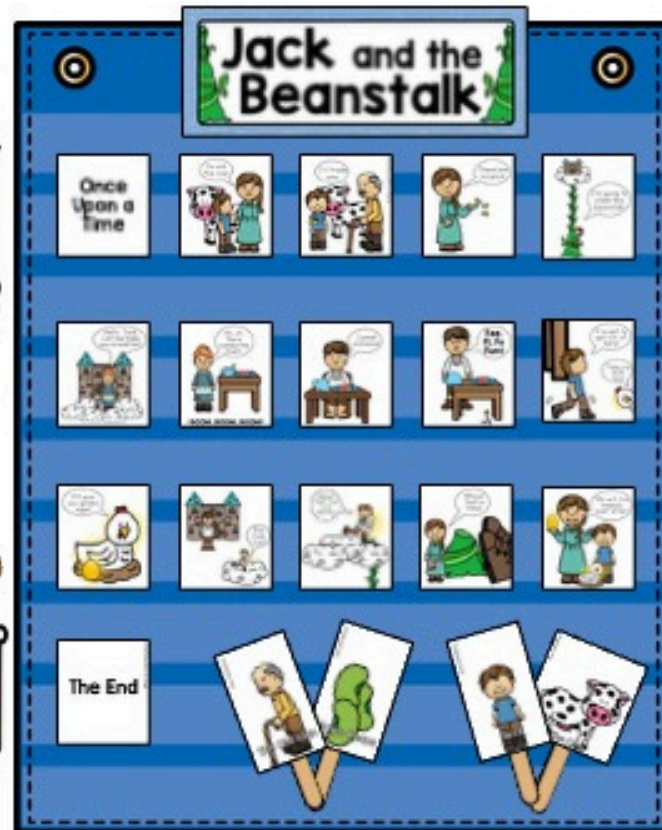

When children remember and retell the events of a story, they deepen their understanding. Story retelling builds sequencing skills, strengthens comprehension, supports memory, and engages students.

### Objective:

- The students will retell a story, including characters and story events.

### Activities:

- Make stick puppets and bring props to circle time to retell the story. Use story cards to assist.
  - Prop ideas - green pool noodle (beanstalk), beans, yellow plastic egg, cotton batting (clouds), boots (giant's feet), small table, blocks for castle.
- Print the included cards on cardstock, then laminate. Place the cards on a pocket chart as the story is retold. Alternately, place hook and loop dots on the back of the cards and have students retell the story at a flannel board.

**Extension Idea:** Tell a "Freeze Frame" style of the story where students act out the scene and then freeze when the reader says, "Freeze Frame!"
